

BSC1010 Assignment: due Monday, Nov. 8.

Organize the following terms into related groups. Draft a one sentence description of each term. Assume we are talking about eukaryotic organisms. Use *who, what, how, when, where and why* to guide you towards a thorough description.

You will not turn this in. I will call on you to read your answers as part of the class discussion.

FAT
DNA REPLICATION
TRANSCRIPTION
GLYCOLYSIS
PROTEIN
CELLULAR RESPIRATION
TRANSLATION
CITRIC ACID CYCLE
OXICATIVE PHOSPHORYLATION
RNA PROCESSING
CARBOHYDRATE
NUCLEIC ACID
